

Complete more jobs in a day

- Fully integrated electronics featuring cutting parameters on screen, indicator and diagnostic function
- Hilti Cut Assist equips tool for fully automated cutting, allowing for higher productivity and more time for other jobs
- Easier to handle and move more compact, no external electrical box, no connecting cables needed
- Use in tight spaces robust and compact systems

Increase your productivity with DST WRC-CA wireless controller for wall and wire saws engineered for heavy-duty cutting

Technical data*	DST 10-CA "Gen 03"	DST 20-CA "Gen 03"	DSW 1510-CA "Gen 02"	DSW 2005-TS
Power class	10 kW	20 kW	16 kW	13 kW
Max. cutting depth	53 cm	73 cm		
Weight	34 kg	32 kg	345 kg	160 kg (including rail & saw head)
Storage capacity			9.8 m	5.0 m

^{*} technical changes reserved

Wall Saw Advantages:

- Water bypass for dry cuts for DST 10-CA "Gen 03"
- Pull Push mode in CUT Assist for DST20-CA "Gen 03" for faster movement when changing cutting direction
- Hilti Traction Control for maximum sawing performance
- Integrate Flush cutting flange

Wall Saw Applications:

- Cutting through steel-reinforced concrete, synthetic and natural stone, brick, block and other mineral-based materials
- · Facade and balcony renovation
- Structural demolition bridges, chimneys, tunnels, dams, foundations

Wire Saw Advantages:

- Wireless remote allows operator to stand at a safer distance during use
- Keyless adjustment of the new pulleys
- All pulleys with service set to replace rubber bandages

Wire Saw Applications:

- Structural alterations to buildings or infrastructure
- Structural demolition bridges, chimneys, tunnels, dams, foundations
- Sawing in noise-sensitive locations

Wire Conversion Kit Advantages:

- Adapt DST20-CA "Gen 03" wall saw from cutting with wall saw blades to diamond wires
- Smoother and easier to start thanks to the dedicated software

Wire Conversion Kit Applications:

- · Cutting through thick components
- Cutting rectangular openings (doors, windows and shafts etc.) without the over-cut left by a circular blade
- Small structural modifications (cutting through columns and beams)

Please visit Hilti online for further information on wire saw accessories and wire consumables
